## **GOLD** Universal Joints

### **Neapco® Premium Quality Universal Joints**

- 1310 - 1550 Universal Joint Series
- Lubricated for Life - High Performance Sealing System
- Meets OEM Performance Standards
- Covered by Neapco's "Extended Warranty"
- Backed by Neapco's Superior Customer Service

# IMPORTANT INFORMATION

Issue Date 2014  
Weatherly No. 090  
Catalog UJ2015D

**Please read the following important information before using this Catalog:**

**ALWAYS CONSULT AND REVIEW THE ORIGINAL MANUFACTURERS INSTRUCTION MANUAL(S) TO DETERMINE THE APPROPRIATE INSTALLATION PROCEDURES FOR A PARTICULAR VEHICLE APPLICATION.**

**FOR THE LATEST INFORMATION ALWAYS REFER TO THE NEAPCO eCATALOG**

## IMPORTANT NOTICE

The data listed in this catalog is correct to the best of our knowledge, having been compiled from sources of information which we believe to be reliable. However, we cannot assume any responsibility for possible error. Parts included in this catalog are manufactured for use only in the intended O.E.M. vehicle application(s). Installation and use in a vehicle that has been modified to any degree that is not consistent and equivalent to O.E.M. production specifications for the vehicle application(s) may result in reduced life or possible part failure.

## WARRANTY

We warrant to the original purchaser all new parts to be free of defects in material and workmanship when such parts are used on applications which have been approved by our Engineering Department, but not against damage caused by negligence or abuse.

Our obligations and liabilities under this Warranty shall be limited to replacing or repairing such parts if found upon inspection by us to be defective.

OUR WARRANTIES ARE STRICTLY LIMITED TO THOSE JUST STATED. WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE AND ALL IMPLIED WARRANTIES ARISING FROM A COURSE OF DEALING, USAGE OR TRADE, BY STATUTE OR OTHERWISE ARE HEREBY DISCLAIMED, and in the event of breach of any warranty or any legal action brought by buyer based on alleged negligence or other tortious conduct of us, buyer's sole and exclusive remedy will be replacement of defective material as stated above. WE WILL NOT BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL OR CONTINGENT DAMAGES OF ANY KIND. We make no warranty whatsoever with respect to component parts or accessories not supplied by us.

# TABLE OF CONTENTS

<b>Section</b>	<b>Page Number</b>
<b>Conversion U-Joints Listed by Part Number</b>	<b>1</b>
<b>Round Bearing Cap U-Joints Listed by Bearing Diameter</b>	<b>3</b>
<b>Wing and Block U-Joints Listed By Size</b>	<b>10</b>
<b>All U-Joints Listed by Part Number</b>	<b>13</b>

## HOW TO USE THIS CATALOG

### **For Conversion U-Joints**

Measure Round Bearing Diameter and Yoke Lock-up, or if the Series is know, reference U-Joint Type to determine the two different Series to be converted.

### **For Round Bearing Cap U-Joints**

Measure Round Bearing Diameter and Yoke Lock-up to determine the correct part number.

### **For Wing and Block U-Joints**

Measure the CL to CL value (centerline to centerline), Round Bearing Diameter (where applicable) and Yoke Lock-up to determine the correct part number.

### **U-Joints reference by Part Number**

Use this numerical reference by part number to confirm dimensional attributes for each part number.

### **Bearing Type Abbreviations**

#### Round bearing Types

- ISR - Inside Snap Ring
- OSR - Outside Snap Ring

#### Wing Bearing Types

- DWT - Delta Wing Threaded
- HWD - High Wing Drilled
- LWD - Low Wing Drilled
- LWT - Low Wing Threaded

# UNIVERSAL JOINT IDENTIFICATION

## Round Inside Lock-Up/Snap Ring (ISR)

This universal joint design uses round bearing cups with a snap ring groove on the outside diameter of the bearings and machined flat surfaces on the inside of the yoke ears. It is easier to measure the lock-up for this style by measuring the yoke from inside ear to inside ear. If the yoke is not available, lock-up can be measured on the universal joint itself.

1. Assemble bearing cups onto cross.
2. Install snap rings in bearing grooves.
3. Remove rubber seals or clamp bearing cups with a C-clamp or vise.
4. Measure across the outside of the two installed snap rings facing one another to obtain the lock-up dimension.
5. Measure the outside diameters of the bearing cups. Conversion joints and some OE applications may have two different diameter bearing cups.
6. For conversion type universal joints repeat steps 1-5 for the other leg of the universal joint.

## Round Outside Lock-Up/Snap Ring (OSR)

This universal joint design uses round bearing cups with a flat ground back surface. The cups are retained in the yoke by a snap ring that locks into a groove in the yoke crosshole.

1. Assemble bearing cups onto cross.
2. Remove rubber seals or clamp bearing cups with a C-clamp or vise.
3. Measure across the outside of the two bearing cups.
4. Measure outside diameters of the bearing cups. Conversion joints and some OE applications use two different diameter bearing cups.
5. For conversion type universal joints repeat steps 1-4 for the other leg of the universal joint.

## Plastic Injection

This style of lock-up was used in OEM Saginaw & AAM applications. When disassembled, OE joints are replaced with standard universal joint kits using round inside lock-up/snap rings.

## U-Bolt & Bearing Strap

These two types of universal joints use round bearings secured in the yoke ears by a U-shaped bolt or strap that fits over the bearing cups. Measure in the same manner as round ISR or OSR.

## Round w/Plate

These universal joint kits use a flat plate welded to the back surface of the bearing cups. Two bolts retain each bearing in the yoke ears. Heavy Duty series using this style are 1610, 1710, 1760, and 1810. Basic reference dimensions required to identify each one are listed below. Measure between the inside surfaces of the retainer plates or across the outside surfaces of the yoke ears.

LOCK-UP	SERIES	KIT NO.
5.312	1610	4-0279
6.094	1710	5-0280
7.000	1760	6-0407
7.547	1810	6-0281

## Mechanics Design (Wing Bearings)

This universal joint design uses a block- or wing-style bearing cup that locates in a flat flange-type yoke with a tongue and groove arrangement. Identify the bearing shape on the previous diagram. Some applications use two different bearing types.

1. Assemble bearing cups onto cross.
2. Clamp the bearings with C-clamp or vise.
3. Measure across two opposite bearings, in the same manner as round outside lock-up/snap ring to obtain the yoke lock-up.
4. Measure the cap holes CL to CL (centerline to centerline) to identify the series.
5. Identify the proper cup (Bearing Type) DWT, HWD, LWD, or LWT.

# eCatalog

The Neapco enhanced electronic catalog has been created using the latest cloud based technologies using the AAIA (Automotive Aftermarket Industry Association) ACES & PIES Standards.

For more information please go to: <http://www.aftermarket.org/technology/aces.aspx>.

Navigation to the eCatalog can be obtained by simply going to Neapco.com <http://www.neapco.com/>, selecting the Aftermarket Site, then selecting Catalogs from the tab selection.

Clicking on the “**Visit the Neapco eCatalog**” will open a new browser window and present three options:

- ***Search by Part #*** (*Neapco, OEM, or Interchange*)
- ***Search by Vehicle Application Lookup*** (*Make, Year, Model*)
- ***Search by Product Lookup*** (*Part Type*)

Since electronic catalogs are not bound by the format constraints of paper, it's important to think of these as product groupings. Specifically:

- **Application Look-Up** – Parts having specific Y/M/M fitment information.
- **Non-Application Look-Up** - Full specifications & interchange.

**Updates** – Possibly the single biggest benefit of electronic lookup is that it has the capability of real time updates. What is displayed in the Neapco eCatalog is the exact same data that is being authored in REAL Time.

***What does that mean to the end user?*** When we add, change, or discontinue, a part number it changes instantly in the Neapco eCatalog. While print is not dead, those using print face a definite business disadvantage from those who use electronic information. Making the transition to the electronic information age is something we encourage everyone to consider.

**Featured Products** - This screen will preview the latest and most innovative products offered by Neapco. Clicking on the link in one of the rotating products will display; Image; Buyers Guide; Specifications; and Interchange Information. In addition where available, Product Instructions, and Product Brochures may also be listed.

## **QSP Universal Joints**

**Neapco® quality with value based pricing**

- 1610 - 1810 Universal Joint Series
- Industry leading competitive price point
- Meets Neapco design and manufacturing standards
- Backed by Neapco's superior customer service
- Available for immediate shipment
- Covered by Neapco's "Limited Warranty" - 1 Year / Unlimited Mileage

Neapco Components, LLC  
Box 399, 740 Queen Street
