sonnax® DRIVELINE SLIP YOKE CATALOG VOL 2

Visit www.sonnax.com
for most up-to-date slip yoke listing.

Sonnax® DRIVELINE

Since our founding in 1978, the Sonnax name has been synonymous with the highest quality parts for the automotive aftermarket. Among these products is a line of superior driveline components: aluminum weld yokes, tubing and repair bushings. Now we are proud to include premium quality forged steel slip yokes to our driveline offering.

Premium Steel Slip Yokes from Sonnax

Sonnax takes slip yokes to a new level by offering the industry affordable, high-quality performance yokes!

Forged & Precision Machined

Sonnax slip yokes are forged – not cast – for greater strength and undergo a precision machining process to guarantee exceptional balance and minimal runout.

100% Leak Tested

No need to worry about leaks. The seal plug is OD ground for a superior seal, and all slip yokes are air tested to 40 PSI.

Made in the USA

Slip yokes are manufactured at Sonnax’s ISO-9001 manufacturing facilities in Vermont. Our team of skilled engineers and craftsman oversee the production process from start to finish, ensuring every yoke is made to exacting standards.

Slip Yoke Dimensions

- A** Spline Tooth Count **B** Seal Diameter **C** Length

How to Determine Spline Tooth Count

Some slip yokes have a spline missing. To verify spline count, always count the teeth on the transmission output shaft.

A slip yoke with “counterbore” is when a slip yoke has a short lead without spline in the end of the yoke.

Visit our online catalog at www.sonnax.com or call (800) 843-2600 or (802) 463-9722.

Scan code with smartphone.

Quickly locate the slip yokes you need with our handy online slip yoke finder. Visit www.sonnax.com or scan the QR code to look up slip yokes.

1310	3-7/32	1-1/16	N/A
1330	3-5/8	1-1/16	N/A
1350	3-5/8	1-3/16	N/A

sonnax®

Sonnax is an Employee-Owned Company

Sonnax is a diversified supplier of specialized drivetrain products to the automotive and commercial vehicle industries, and to industrial sectors utilizing drivetrain technology. We design, manufacture, test and distribute a wide variety of components used to remanufacture torque converters, to rebuild automatic transmissions, and to protect driveshafts and associated components from over-torque damage.

Sonnax designs and manufactures the industry's best driveline components. In addition to premium steel slip yokes, we offer OE-quality Alcoa® tubing ordered to our specifications, along with 6061-T6 aluminum yokes and repair bushings which are precision machined by skilled craftsmen at our Vermont manufacturing facility.

Call us or visit www.sonnax.com anytime to request a Driveline catalog.

sonnax® POWER TRAIN SAVERS®

Dependable & Affordable Drivetrain Protection

Power Train Savers are patented drivetrain protection devices which mount into your existing driveshaft. Once installed, these unique devices protect the drivetrain from over-torque damage that can ruin differentials, gears, axles and driveshafts.

With a Power Train Saver installed, you won't notice a difference in performance until you encounter an over-torque situation. Then, our precisely calibrated Torque Fuses® shear before drivetrain damage can occur, while the unit design holds the driveshaft in place.

If costly repairs to drivetrain components aren't a concern, consider the collateral damage caused by a broken driveshaft, including damage to hydraulic lines, fuel tank, air lines, etc. Add to that costly downtime waiting for a wrecker and repairs, and the benefits of installing Power Train Savers quickly add up.

Learn more about Power Train Savers at www.sonnax.com or call (800) 843-2600 or (802) 463-9722.

Warranty Policy

Sonnax warrants to the purchaser that each part manufactured or supplied by Sonnax will be free from defects in material or in factory workmanship. The warranty period shall extend for six (6) months from the date of sale. Sonnax must receive all warranty claims before the end of the warranty period.

If Sonnax determines that the part is defective in material or in factory workmanship, Sonnax will, at its option, repair or replace the defective part, or issue an account credit for the purchase price. This remedy is Sonnax's sole liability and the sole remedy provided by Sonnax for any breach of warranty.

All warranty returns must be pre-approved. Please contact Sonnax if you have a part to be returned under this warranty.

This Warranty will not cover: Removal and replacement labor costs; Loss of time, inconvenience or other consequential damage; Any Sonnax part that has been:

Subject to misuse, negligence; alteration or improper maintenance; Improperly installed in the judgment of Sonnax, so as to adversely affect its performance and reliability.

This warranty is the only warranty applicable to parts manufactured or supplied by Sonnax, and is expressly in lieu of any other warranties, expressed or implied, including any implied warranty of merchantability or fitness for a particular purpose. Any representations or descriptions in brochures, ads or catalogs are approximate only and will not create any warranty or other obligation by Sonnax. There are no warranties which extend beyond the description on the face hereof.

Sonnax does not authorize any person to create for it any other obligation or liability in connection with these parts. Sonnax shall not be liable for any incidental or consequential damage, lost profits, lost savings or punitive damages resulting from any breach of warranty.
